

The State of Maryland receive notice that two of the attachments submitted this morning were not usable because of passwords and/or macros. We have been unable to remove the macros and passwords because the files were prepared by the vendor and we do not have access to change them.

All files were sent by courier to the FCC this morning in accordance with the FCC requirements as stated in an email from Pam Gregory and the FCC should be in possession of these documents.

If you have any questions, please contact: Brenda Kelly-Frey, Director,  
Maryland Relay at email: [brenda@mdrelay.org](mailto:brenda@mdrelay.org)
